# 1 Introduction: Overview of the website and its purpose.

Co-funded by the European Union

The Most Value Play website is designed as a comprehensive platform for educators, learners, and content creators in the e-learning space. With a focus on gamification and interactive content, this platform aims to empower users to develop, share, and utilize custom learning games to enhance educational experiences. Built on WordPress and integrated with robust tools, the site offers intuitive navigation, collaborative features, and resources to ensure an engaging user experience. This manual provides a detailed guide to navigate the website, manage your account, and create dynamic learning materials.

## 2 Website Navigation: Description of key pages and features.

#### 2.1 Navigation

Co-funded by the European Union

Image 2 Main Menu

The website's navigation menu, located at the top of each page, provides seamless access to key sections:

- **Home**: Directs to the homepage, offering a summary of the site's features and latest updates.
- **The Project**: Explains the project's objectives, its inception, and the contributions of main partners.
- **The Partners**: Highlights the organizations and individuals that support and collaborate on the project.
- **Contact Us**: Leads to a form where users can submit inquiries, suggestions, or requests for assistance.
- **My Account**: A central hub for login, registration, and managing personal account settings.

### 2.2 Login process

To access personalized features, users must log in:

1. Click the **My Account** and **Login** link in the main navigation menu.

2. Enter your credentials (username and password) on the login page.

### 2.4 Home Page Description

The **Home** page serves as a gateway to the website's offerings:

- **Search Bar**: Located below the main menu, this tool helps users find specific content with ease.
- **Game Catalog**: A curated list of prominent game-creation websites is presented here, complete with advanced filtering options to identify resources that best suit your needs.
- **News Section**: Stay updated with the latest trends in e-learning and gamification through this dynamic feed.

#### 2.4.1 Search Bar

Below the navigation menu there is a useful search bar where you can use it to find content in the website.

#### 2.4.3 News Section

At the end of the page there is a news section to learn all the news in the e-learning and gamification to better understand and develop games for students.

Brain Boosters: Understanding Neurochemicals in Gamification April 27, 2024 /// No Comments

Gamification in education isn't just about making learning fun. It's a strategic approach that taps into the brain's natural mechanisms for motivation and learning. Central to this strategy are neurochemicals—substances produced by the brain that play a crucial role in how we feel, learn, and retain information. This article delves
